WORK EXPERIENCE

Google (contractor for Apex Systems)

02.2017 – 11.2017

UX Production Designer
Mountain View, CA

- Designed UI for Contacts integration with Google Assistant
- Designed UI and Google Play Store images for Google Contacts
- Launched 3 versions of Google Contacts for Android assuring app was Material Design compliant
- Worked closely with engineers during implementation process and provided redlines/specifications

Fujitsu (Independent contractor)

11.2016 – 03.2017

Lead UX Designer
Sunnyvale, CA

- Lead UX redesign of Fujitsu research web app
- Conducted UX Research at Fujitsu consisting of field research & competitive analysis
- Created UI prototypes of web app using InVision and animations using Adobe After Effects
- Completed redesign and implemented front end of research app in only 4 months

Nightwatch (Independent contractor)

11.2015 – 11.2016

Lead UI Developer
Sunnyvale, CA

- Created UX user journeys for both mobile and web versions of the Nightwatch App
- End to End UI/UX design of app including wireframes, prototypes & visual design
- Designed and Developed shopping cart system for nightwatch24.com
- Icon design and illustration for Nightwatch 24 mobile app and website

SAP

11.2014 – 09.2015

Senior Visual Designer
Palo Alto, CA

- Responsible for overall look and feel of SAP Cloud For Customer CRM

- Restyled SAP UI5 Fiori components including dashboards, tables, icons and others
- Gave workshops to designers and engineers on using Sketch App for UI Design
- Designed marketing material including responsive HTML emails, business cards and clothing
- Designed UIs for C4C apps and created visual design specifications/redlines for development team
- I was the first member of the design team to work directly with the development team to actually implement CSS updates to C4C and push changes to their Git repository

Cisco Systems

12.2012 – 11.2014

Visual Designer
San Jose, CA

- Completed redesign of Cisco Prime Widget Library in only two months which consists of over 50 widgets focusing on mobile usability, clean design and increasing performance / reducing page load times
- Heavily involved in every step of Cisco Prime Framework redesign including: widget design in Illustrator, widget specifications / redlining, creating Invision & Axure prototypes, CSS3 implementation and usability testing
- Complete UI redesign of SMB Marketplace from usability case studies, wireframes, and prototypes to a front end implementation

Independent Contractor

11.2007 – 12.2012

UI Designer
New York, NY

- Designed websites for HP, Capital One, Absolut, Shire at Porter Novelli
- Responsible for daily updates to HP's news website (www.hp.com/hpinfo)
- Lead UX Designer for Cornell University online course
- UX Design and wireframes for www.Rebny.com
